Practices & Tools
Git, Automated Testing, Clean Code, SOLID

CERTIFICATES

PCEP – Certified Entry-Level Python Programming
Python Institute

AWS Cloud Practitioner
Amazon Web Services

PROFILE

Software engineer with a background in Python development, DevOps, and cloud infrastructure. Experienced in building APIs, automating workflows, and supporting reliable software systems on AWS and Kubernetes.

WORK EXPERIENCE

Senior DevOps Engineer

Guidewire Software, Curitiba / May 2025 – Present

Support availability, observability, and operational reliability of cloud-hosted products.

- Automate operations using Python, PowerShell, and shell scripting.
- Manage infrastructure through Terraform and Terragrunt across 20+ AWS accounts.
- Operate Kubernetes (EKS), build CI/CD pipelines with TeamCity, and monitor services using Datadog.

Python Software Engineer

Organia, Curitiba / Nov 2024 – Jan 2025

Developed software for conversation analysis and transcription workflows.

- Built FastAPI services and Streamlit product interfaces.
- Maintained PostgreSQL databases, automated tests, and integrations with AI providers.

JavaScript | Python Software Engineer

Floui, Curitiba / Oct 2023 – Nov 2024

Developed a low-code integration and automation platform.

- Created integrations, backend APIs, and frontend features with Node.js and Vue.js.
- Developed internal Python tools and end-to-end tests with Robot Framework.

PROJECTS

GW Inventory CLI

Python, AWS, Kubernetes

CLI tool for gathering and classifying AWS and Kubernetes resource inventory across accounts and clusters.

Floui CLI

Python, Docker, OAuth2, SSH

Developer CLI for generating connectors, running tests, inspecting containers, and integrating with external services.

EDUCATION

Bachelor's in Software Engineering

UNINTER, Curitiba / Jul 2023 – Jul 2027
